

IONIQ 5 N

IONIQ 5 N(Performance Blue Matte)

Everyday N Life

650hp and 0-100km/h in 3.4 seconds*

The IONIQ 5 N is a high-performance electric car that delivers a driving experience like no other—whether in the driver's daily routine or on the racing circuit, where extreme conditions are the norm.

* When using N Grin Boost mode

IONIQ 5 N(Black one-tone)

* The screen layout/design of the infotainment system may change with the updates.

The N Light sports bucket seats feature mixed Alcantara suede/natural leather, built-in headrests, heated/ventilated seats, and the N logo on the front/rear(front lighting).

Function

The IONIQ 5 N offers incredible functions and advanced smart technologies to guarantee top-rate driving performance.

IONIQ 5 N Function
Take a closer look

N-exclusive infotainment mode

A high-end infotainment system provides information through several customizable “N” modes. The EV N-exclusive functions are intuitive and easy to use.

N e-Shift / N Active Sound+

N e-Shift provides a gear shift feel and generates driving sounds that make it seem like you’re driving an internal combustion engine vehicle. N Active Sound+ offers a choice of three sound types(Ignition, Evolution, and Supersonic) and can be linked to N e-Shift.

* The screen layout/design of the infotainment system may change with the updates.

Semi-punching leather-upholstered steering wheel(with heating and N emblem), featuring a design optimized for circuit/sports driving

The steering wheel, optimized for sports driving, is covered in leather.

Ambient mood lighting

The mood lamp's color can be changed as desired.

N-exclusive center console

The shin-supporting pad helps the driver maintain proper posture while circuit driving.

OTA Software Update

Get the newest version of the software wirelessly by simply turning the car off.

* The screen layout/design of the infotainment system may change with the updates.

Digital key 2

It is possible to lock, unlock or start the car using a smartwatch or smartphone, without requiring a smart key.

* Share permissions with up to 15 devices.

Augmented reality navigation

The driver's screen intuitively displays vital information(e.g. destination, vehicle-to-vehicle distance, front vehicle start alarm) through AR technologies.

* The screen layout/design of the infotainment system may change with the updates.

Digital center mirror

The camera on the digital rearview mirror allows you to see what is behind the vehicle in incredible clarity.

Remote Smart Parking Assist 2

The driver can use the smart key, while outside of the vehicle, to move the vehicle into or out of a parking space.

Surround View Monitor

This function displays real-time video footage of the vehicle's immediate surroundings to ensure safe parking.

Smart power tailgate

If the driver stands near the rear of the vehicle for three seconds with the smart key in his or her possession, the tailgate will open automatically, requiring no other action and enabling the driver to remove items from the vehicle easily and conveniently.

Electric High Performance

The IONIQ 5 N's power and braking performance make everyday driving feel like you are in a sports car.

Max.Power / Max.Torque(when using N Grin Boost)

478kW(650PS)/770Nm

0-100 km/h

3.4sec

* N Grin Boost allows maximum output for 10 seconds. Each use is followed by 10 seconds of wait time.

N-exclusive high-performance brakes / N Brake Regen(NBR)

The IONIQ 5 N is equipped with four-piston brake calipers on the front, as any high-performance car would be. Its superior braking capability is made possible by N Brake Regen(regenerative braking), which is capable of generating a decelerative force of 0.6G.

Rear-wheel N Corner Carving Differential(e-LSD)

This electronic limited-slip differential controls the drive(rear) wheels to enable maximum motor output, enhance driving performance, and compensate for driving power losses.

N-Exclusive Functions

Experience everything that N technology has to offer—even on the racing circuit.

IONIQ 5 N
N-Exclusive functions
Take a closer look

01 Race

N Race(Sprint, Endurance)

Manages energy consumption so that you can employ the function that is best suited for a particular driving situation.

- Sprint : Minimizes lap times by delivering maximum performance in a short timeframe.
- Endurance : Extends track-driving time by adjusting output intelligently.

N Battery Preconditioning(Drag mode, Track mode)

Maintains optimum battery temperature in preparation for diverse driving situations.

- Drag mode : Maintains battery temperature at 30-40°C to ensure maximum performance in a short timeframe.
- Track mode : Maintains battery temperature at 20-30°C for sustained driving.

Track SOC(State of Charge)

Displays energy consumption levels from the previous lap to allow the driver to control battery levels during circuit driving.

Linear route 2

02 Linear route

N e-Shift / N Active Sound+

Allows driver to closely control the car's movements by changing speed virtually, with three driving sounds to choose from. (Ignition / Evolution / Supersonic)

N Launch Control

Allows car to accelerate easily when starting from a stop and provides optimized motor torque and wheel slip control based on road grip level(low, medium, or high).

NGB(N Grin Boost)

Maximizes acceleration performance by making the battery and motor more responsive and able to operate at maximum output over a designated period of time.

Listen to audio samples of N e-Shift and N Active Sound+

Curved route

03 Curved route

N Pedal

Enables agile handling through the quick transfer of weight using strong regenerative braking (when the accelerator pedal is not depressed).

N Torque Distribution

Allows the driver to decide the driving power to be delivered to the front and rear wheels.

N Drift Optimizer(with Torque Kick)

Optimizes vehicle control while prioritizing the transfer of driving power to the rear wheels to ensure smooth drifting.

Left Foot Braking(LFB)

Enables braking with the left foot when winding or circuit driving by stepping on the brake and accelerator pedals simultaneously.

* For your safety, do not use this function outside of a racing track.

EV Convenience

Can be quickly recharged by even a high-output, high-voltage charging system.

Multi-high-speed charging system

The IONIQ 5 N is equipped with the multi-high-speed charging system(400V / 800V), which is compatible with a wide range of charging infrastructures.

Rapid charging

(350kW, at highest-allowable battery temperature)

18min

Can go from 10% to 80% in as little as 18 minutes with an 800V charger. Convenient for linked or emergency charging.

Maximum driving distance for one charging

351km

The use of a large-capacity battery pack(84.0kWh) makes the IONIQ 5 N an electric car that can be taken on long-distance drives, in addition to shorter urban trips.

Regen control paddle shift

Allows quick and easy change in cruise regeneration level(coast regen)* via an N-exclusive paddle shift, with five levels for regular driving(0-4) and three for the N pedal(1-3).

* Coast regen: Recovers energy through the regeneration function of the motors when driving for a prolonged period without using the accelerator pedal, not to be confused with regenerative braking via cooperative control.

Outdoor V2L

Passengers can use a wide selection of electronic devices outside the vehicle as well as inside through the outdoor V2L function. The outdoor V2L function ensures a comfortable experience for passengers during outdoor activities in virtually any environment.

Hyundai SmartSense

Hyundai SmartSense keeps the driver and passengers safe and protected.

Hyundai SmartSense
Take a closer look

Forward Collision-avoidance Assist(intersection crossing/front oncoming/ changing lanes in oncoming traffic/approaching from either side/ evasive steering assist)

This function, after scanning the vehicle's immediate surroundings, issues warnings of collision risk. If, after a warning is issued, the vehicle in front suddenly slows down or the risk of(front) collision with a car, motorcycle, pedestrian, or bicycle increases, automatic control is activated. If, while making a left turn at an intersection with the turn signal on, the risk of collision increases with a car or motorcycle approaching from the opposite side or with a car approaching from the left or right while going straight at an intersection, automatic braking will be activated to help the driver maintain control of the vehicle.

Lane Following Assist

This system keeps the car in the center of the lane.

Blind-spot Collision-avoidance Assist

A warning is issued if risk of collision with the vehicle next to or behind you is detected while changing lanes. If, while attempting a forward exit(from a parallelparked position), risk of collision with the vehicle next to or behind you is detected, the automatic vehicle control function is activated.

Rear Cross-Traffic Collision-avoidance Assist

If a collision risk is detected from the right or left while driving in reverse, the driver is issued a collision warning. If the collision risk increases after the warning, the brakes are activated automatically.

High Beam Assist

Automatically brightens or turns down the head lamps after ascertaining the brightness of the driver's surroundings or the lamps of an oncoming car or a car driving in front.

Navigation-based Smart Cruise Control(safe/curve/access road)

This system helps the driver maintain a safe speed based on road conditions when driving on a highway or a regular road. It automatically reduces the car's speed just before it enters a reduced-speed zone. After leaving the reduced-speed zone, the vehicle is brought back to its designated speed. This system also helps maintain a safe driving speed at the entry or exit point of a highway.

Highway Driving Assist 2

This system helps to not only maintain a safe distance with the vehicle in front on a highway or a regular road by driving at a uniform speed but also to keep the vehicle in the center of the lane on a curved road. If you engage the turn signal in the direction you wish to change lanes in, the vehicle will automatically move over(HDA 2 only works above a certain speed).

* The Advanced Driver Assistance System(ADAS) is a group of functions that help the driver operate the vehicle more safely. Please make sure to drive carefully.

* Depending on the environment and driving conditions, the given function may not operate properly. Please refer to the manual for details.

Hyundai N app

- Can use additional functions after acquiring Bluelink membership (e.g. link to driving data, ranking data).
- Stores/analyzes actual driving data collected while on the track.
- Provides circuit driving data to other app users.
- Can be used simultaneously on smartphone and tablet PC(with at least Android 6.0 or iOS 11.0).
- Provides data on motor/battery temperature, G-Force, RPM, torque, lap times, and more.
- How to download: Search "Hyundai N" on Google Play(Android) or App Store(iPhone)

N Brand Fast-Charging Station

To ensure an enjoyable track experience for IONIQ 5 N customers, Hyundai Motor provides free charging with the N Brand fast-charging station at Inje Speedium, Korea's foremost motor racing circuit.

Location

- Parking Lot 2, Inje Speedium
- Address: 130(1500, Buk-ri, Girin-myeon), Sanghadap-ro, Inje-gun, Gangwon-do, Republic of Korea

Benefit eligibility/details

Charging fee

(Unit: KRW/kWh)

Category	IONIQ 5 N customer	Hyundai EV customer	(Non-member) EV customer
General	Free	260	440
Roaming	347.2		

※ Roaming businesses: 26 private(e.g. ChargeEV, KEVCS, Daeyoung Chaevi, TMAP, Easy Charger, LG UPlus) / 1 public(Korea Environment Corporation)

※ Figures as of Nov. 22, 2023

Fees for EV customers (both Hyundai members and non-members) may vary depending on company policy. (Fees for IONIQ 5 N customers are not subject to change.)

* The above fee discounts are provided only for the N Brand fast-charging station at Inje Speedium.

* The above benefits will be provided for the duration of the fast-charging station's operation(until 2028) and are subject to change depending on company policy/circumstances.

* N Brand/Hyundai charging discounts are provided after confirmation of EVSIS membership(membership card, QR code, NFC).

* The above discounts are not provided for roaming charging or purchases made with an EVSIS gift certificate or subscription plan.

* In the event of a communication error between the charging station and your vehicle, you may be unable to receive the above discounts. (Customer services: 1577-1556)

※ All figures satisfy standards designated by the Ministry of Trade, Industry & Energy.

Maintain a constant speed to drive more efficiently.

■ The fuel economy described above is based on the standard model and may differ during actual driving depending on road conditions, driving technique, cargo load, vehicle maintenance, and outdoor temperature. ■ Some of the images presented here include optional specifications, so their appearance may differ from the car you purchase. ■ The specifications, colors, and sources presented here may be modified to improve vehicle exterior and performance. ■ Leather(seats, wrapped parts) is partially mixed with synthetic leather and/or other materials(e.g., fabric). ■ Vehicle colors presented here may differ from actual appearance. ■ Driving range may vary depending on the driver's habits, road conditions, outdoor temperature, and air conditioning settings. ■ A drop in outdoor air temperature(in winter months) may result in a shorter range due to a decrease in battery performance. ■ Hyundai Motor Company is committed to fair trade practices, with the same price and quality of vehicles nationwide. ■ For more information about the new technologies and specifications described in this brochure, please refer to a user's manual.

The images presented here are intended to inform customers and display the best models and options.
The specifications described above vary by option, package, powertrain, and exterior color. For detailed specifications, please refer to the price list for the relevant month.

How to purchase an electric car

① Sign a car sales contract
-Car contract

② Apply for subsidy
-Fill out electric car subsidy application for the local government of jurisdiction
-Submit application
-Receive results

③ Get information on home charger
-Consultation available for those who wish to install a charger at home
-Information on one-stop consulting services, connection to Hyundai Motor partner company

④ Car allocation, car release
-Check is made on eligibility for and amount of electric car subsidy (from local government of jurisdiction) by 10 days before car allocation
-Car will be released if there are no outstanding issues

⑤ Apply for payment of subsidy
-Application process for payment (wire transfer) of subsidy to the local government of jurisdiction must be completed within 10 days of the car's release
-Once subsidy is confirmed to have been wire-transferred to Hyundai Motor, subsidy amount is subtracted from price that needs to be paid by customer

⑥ Install charger
-Home charger will be installed for customers who requested it
-Final check will be done to ensure that the customer is satisfied with the car.

IONIQ 5 N Warranty information

- **Warranty period for separately-insured electric car parts:** 10 years, 160,000km
 ※ High voltage battery: 10 years, 200,000km
- **Related parts:** Drive motor, Reducer, High voltage battery, Inverter, ICCU(LDC+OBC), Electric vehicle system control device(VCU)

The advanced technology of Hyundai's Bluelink system helps keep both the driver and the vehicle safe in any situation. Bluelink is always there to keep you safe, regardless of the location or time of day. Experience the unique joy of safe and comfortable driving.

Remote control

In the extremely hot summer or cold winter months, you can link your smartphone to the air conditioner or heater to set and control the temperature inside the vehicle. Enjoy a pleasant driving experience with Bluelink.

Safety security

The Bluelink Center works 24 hours a day, 365 days a year. If an airbag opens due to an accident, the Center automatically detects your location and takes appropriate actions according to the situation, such as contacting the police, ambulance, insurance company, etc.

Vehicle management

Services include real-time trouble detection while the vehicle is running and regular vehicle inspections on pre-arranged dates. In the event of vehicle trouble, immediate professional consulting is available, and you may conveniently make reservations for repair at the time and location of your choice.

Navigation

This function enables the driver to conveniently search for destinations through voice command and suggests optimum routes based on an independent analysis of real-time traffic information. The driver can search a database of upto- date information to find even newly created destinations.

Streaming services

Passengers can enjoy not only audio content from mobile apps such as Genie Music, Melon, and Podbbang but also a wide range of video content (YouTube, U+ Mobile TV, WATCHA, and Wavve) from the comfort of the vehicle. (High-quality audio and OTT & video streaming are add-on services).

*Free of charge for 5 years for first-time Bluelink members after vehicle purchase. Light Service(emergency call, airbag deployment notification, monthly report, traffic data, etc.) is provided free of charge for additional five years. *Inquiries: Bluelink Kakao Talk Customer Service Center(enter 'Bluelink' in Kakao Talk search screen and add as friend)
*Certain functions (Digital Key 2, Hyundai CarPay, OTA(over-the-air) software updates, and wireless infotainment system updates) are provided only to Bluelink members. *Over-the-air software update is available during the Light Service period.
*High-quality audio and OTT & video streaming are add-on services that require a separate purchase of Bluelink's streaming data plan. You must also link your streaming platform (Genie Music, Melon, WATCHA, Wavve, or YouTube Premium) accounts to the app or car. U+ Mobile TV and YouTube (not Premium membership) can be used without logging in.

EV Charging

A tightly-knit, far-reaching charging network with no blind spots makes charging easy and convenient for electric vehicle drivers.

Nationwide status of ultra-fast charging station infrastructure

43 ultra-fast (350kW) charging stations (as of July 2023)

Highway (12 stations)

Eumseong(down-line), Anseong(up-line), Anseong(down-line), Hwaseong(down-line), Chilgok(down-line), Hoengseong(Gangneung), Naeincheon(Seoul), Mungyeong(Yangpyeong), Haman(Busan), Munsan(Suncheon), Gunsan(up-line), Hampyeongnabi(Muan)

City (31 stations)

Seoul EV Station Gangdong, Euljiro CENTER1, Gangseo flagship store, GENESIS Gangnam, Dongbu High-Tech Center, Nambu High-Tech Center, Seoul Station(Hanwha building), Mapo Sogeum Naru Library, Garak Mall(Songpa-gu), Cheonwang Station transfer parking lot
Gyeonggi Goyang Hyundai Motor Studio, Goyang Gym, Yongin GENESIS Suji, Seongnam Pangyo Tech 1 Tower, Gwangmyeong AutoLand, Dongtan Yeoul Park, Dasan Jungang Park

Gwangju World Cup Stadium
Pohang Nam-gu Office
Jeju Yeongbukro branch, Seogwipo branch, Saebil Cafe, Songdang, Hanaro Mart(Hagwi)

E-FINANCE Charging Benefits

Receive up to 1.6 million complimentary credits, allowing you to use your electric car for two years without having to worry about charging fees.

Type	Provision of charge card	Exclusive promotion for Hyundai Motor card	Hyundai Motor promotion (discount, rent, lease)
Eligibility	All purchasing customers (individual/corporate)	Individual/private business	All customers (individual/corporate)
Criteria	Applied for E-Finance charge card	Credit card payment of at least KRW 10 million (in lump-sum or installments over less than 12 months) and use Save Auto	At least KRW 10 million paid in installments over at least 12 months
No. of credits issued	800,000	400,000	400,000
Date issued	Immediately after application	Within 2 to 3 months of release	

Bluemembers who have purchased an IONIQ 5 N

- Individuals, private business owners, private customers of a rental/lease company
- Employees of a direct purchase company or a company that is using a rental/lease company

* Those who are purchasing a secondhand car are not eligible to receive charging benefits provided for new cars (including rental/lease transfers).

* Complimentary benefits are provided only to customers who registered within two months of their car's month of release.

* Does not apply to employees of Hyundai Motor or authorized retail stores or Bluehands representatives

How to apply for Bluemembers membership

Fill out an application and submit it and any required documentation to the branch or retail store where you purchased your car.

(Rental/lease customers may apply at any authorized Hyundai Motor retail store or online (after applying for membership on Hyundai Motor's website).)

How to apply for charging service

Apply for the E-Finance charge card through the myHyundai app.

- A text message notification is sent within seven days of the car's release or completion of Bluemembers membership application.
- The charging service can be applied for within two months of the car's release.

Customer support

- Inquiries on program or service eligibility:
any Hyundai Motor Customer Service Center (080-600-6000)
- Inquiries on charging card: SK electlink Call Center (1566-1704)
